

Sump / Refugium sample sketch

24"L x 14"W x 14"H = Aprox. 20 Gallons

27"L x 16"W x 16"H = Aprox. 30 gallons

We do need exact outside hole diameters of BH you will be using, due to all MFG's of BH's are not the same. Also all L x W x H Dimensions must be on sketch. All baffel placements must be located W/ top to bottom locations and spacing inbetween baffels.

Any questions you may have please feel free to contact us @ any time through our website, phone, or fax.
